Oakville, ON | (437) 955-5599 | amgad.m.yassin@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

- Senior Data Analyst with 5+ years of experience leading enterprise analytics, advanced data modeling, and business intelligence initiatives across Retail and Healthcare sectors.
- Specialized in data platform modernization and cloud migrations, translating raw enterprise data into scalable Microsoft Fabric and Power BI ecosystems adopted by 3,000+ users.
- Proven expertise in omnichannel customer intelligence, aligning cross-functional marketing and digital product strategies to generate over \$116M in revenue across 7.8M consumers.
- Track record of automating analytical workflows and predictive models that reduced ETL processing time by 80% and improved prescription refill rates by 13% for active patients.

PROFESSIONAL EXPERIENCE

Senior Data Analyst

October 2024 - June 2026

Nahdi Medical Co. | Jeddah, Saudi Arabia

- Formulated and deployed 32 customer journeys alongside marketing and commercial teams, distributing 55.5M communications that generated over \$116M in revenue.
- Migrated millions of rows from Oracle to Microsoft Fabric using Dataflows and Notebooks, streamlining reporting architecture for over 3,000 users.
- Built an automated daily Python scraper monitoring the SFDA database, instantly alerting commercial teams to price variances and saving millions in supplier negotiations.
- Automated multi-channel paid media ingestion pipelines (Meta, Google Ads, GA4) staging in Azure Blob Storage and Fabric OneLake to eliminate manual reporting.
- Developed an end-to-end ITSM dashboard in Power BI utilizing DAX measures and an ETL pipeline from Oracle RightNow, applying AI/NLP sentiment analysis to optimize SLA performance.

Data Analyst Associate

March 2022 - September 2024

Nahdi Medical Co. | Jeddah, Saudi Arabia

- Architected a Market Intelligence ecosystem integrating Nielsen data into Oracle via a 5,000+ line SQL model that reduced ETL processing time by 80%.
- Enhanced the loyalty program by creating RFM clustering and persona models in Python and SQL, driving look-alike targeting across a 7.8M customer base.
- Engineered an automated Medication Adherence database using Oracle and Python to model purchase dates, improving refill rates by 13% and retaining over 230,000 patients.
- Organized an opportunities bank of 1,500+ behavioral segments, activating 110 tailored customer segments to drive \$150M in incremental revenue.

Operations & Pharmacy Lead

May 2015 - February 2022

Nahdi Medical Co. | Jeddah, Saudi Arabia

- Analyzed operational KPIs including revenue, basket size, and prescription volume across a 20-location network to deliver actionable reporting for regional managers.
- Mined and cleaned large-scale website search logs in Excel to identify 1,000+ product gaps, guiding retail product sourcing strategies.
- Automated daily Excel performance dashboards tracking monthly store revenue targets of \$500K for regional store leadership.
- Resolved inventory gaps and dispensing discrepancies by auditing patient historical transaction records, directly improving customer satisfaction and retention.

PROJECTS

Global AI & Tech Layoffs Analysis | Python, Pandas, Plotly, Dash, Kaggle API | [GitHub](#)

- Extracted and preprocessed a 2,470-record global dataset using Pandas and NumPy, resolving missing values via median imputation and date engineering.
- Published an interactive multi-page web dashboard in Dash and Plotly Express featuring dynamic KPI cards, industry treemaps, and geospatial mapping.

- Oracle Digital Experience Platform Implementation** | Oracle Unity CDP, Responsys, Infinity, Python REST APIs, Power BI
- Integrated Oracle Unity CDP, Responsys, and Infinity alongside cross-functional teams to build a single 360-degree customer profile.
 - Programmed marketing data ingestion from Responsys into the database using Python REST APIs, building a central Power BI dashboard to track communication KPIs.

TECHNICAL SKILLS

Languages & Scripting:	SQL (T-SQL), Python (Pandas, NumPy, PySpark, Scikit-learn, Matplotlib, Plotly, Dash), DAX, Power Query (M)
BI & Data Visualization:	Power BI (Desktop, Service, RLS), Google Analytics (GA4), Looker, MicroStrategy, IBM Cognos Analytics
Databases & Warehousing:	Microsoft SQL Server, Azure SQL Database, Oracle Database, MySQL, Dimensional Modeling (Star Schema)
Cloud, Data & AI Platforms:	Microsoft Fabric, Azure Blob Storage, Azure AI Foundry, IBM Cloud, IBM Watson Studio
Engineering & Developer Tools:	ETL/ELT Pipelines, Robotic Process Automation (RPA), Power Automate, REST APIs, Git, Jupyter Notebooks, Azure DevOps
Methodologies & Frameworks:	Customer Experience (CX) Analytics, Net Promoter Score (NPS), Agile, Scrum, Kanban, Stakeholder Management

EDUCATION & CERTIFICATIONS

Microsoft Fabric Data Engineer Associate (DP-700) Microsoft	December 2025
Microsoft Fabric Analytics Engineer Associate (DP-600) Microsoft	August 2026
Certified in Business Data Analytics (IIBA®-CBDA) IIBA	February 2023
Microsoft Azure AI Fundamentals (AI-900) Microsoft	March 2026
IBM Data Analyst Professional Certificate IBM	May 2026
Junior Data Analyst Program NPower Canada Toronto, ON	May 2026
Bachelor of Pharmaceutical Science Mansoura University Egypt	July 2013
